

REPORT:

*Name and email Id: MOULALI KAVALAGI (moulalikavalagi99@gmail.com)

*Task Title: Responsive Company Member Team Page

*Task Description: Develop a responsive web page showcasing the team members of the company.

*Steps Taken:

Created wireframes for the responsive design.

Utilized CSS media queries for different screen sizes.

Implemented a grid layout for displaying team member information.

Challenges Faced:

Cross-Browser Compatibility: The design faced issues on certain browsers.

Image Loading Time: Large images caused slow loading times.

Solutions Implemented:

Cross-Browser Compatibility: Adjusted CSS rules to ensure compatibility with major browsers.

Image Loading Time: Compressed images and utilized lazy loading for improved performance.

Learnings:

Importance of testing on various browsers during development.

Optimizing images is crucial for better page performance.

Project Update:

The responsive team page has been successfully implemented, addressing initial challenges and providing an enhanced user experience across devices.
